PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience building **full-stack web applications, REST APIs, responsive interfaces, database-driven features, and authentication workflows**. Experienced with **MongoDB, Express.js, React.js, Node.js, JavaScript, TypeScript, HTML5, CSS3, REST APIs, and Git**. Worked on enterprise software products at Vision Waves Technologies, contributing to frontend integration, API-driven workflows, debugging, file delivery, video streaming functionality, database operations, and product enhancements. Strong foundation in **DSA, OOP, DBMS, API integration, problem solving, and full-stack application development**.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST APIs, API Integration, Authentication, CRUD Operations

Database: MongoDB, Mongoose, MySQL, PostgreSQL, Redis, SQL

MERN Stack: MongoDB, Express.js, React.js, Node.js, RESTful Architecture, Full-Stack Development

JavaScript: ES6+, Async/Await, Promises, JSON, DOM, API Consumption, Modular Development

Authentication: JWT, Role-Based Access Control, Secure API Workflows

Testing & Tools: Postman, Git, GitHub, VS Code, IntelliJ IDEA, API Testing, Debugging

Deployment: Vercel, Render, Docker, GitHub Actions, CI/CD Fundamentals

Other Technologies: Java, Spring Boot, REST APIs, JPA, Hibernate

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

PROFESSIONAL EXPERIENCE

Vision Waves Technologies Jun 2026 – Present

Software Developer Intern | Indore, India

- Contributed to enterprise **Document Management** and **HR Core** products, working on application functionality, API-driven workflows, frontend integration, debugging, and database operations.
- Developed and modified **REST APIs** and backend functionality while working across Controller, Service, Repository, DTO, and Entity layers.
- Integrated frontend components with backend REST APIs and troubleshot issues across **frontend, backend, and database layers**.
- Worked on **video streaming and file delivery** functionality and integrated services with existing document management workflows.
- Implemented and maintained **CRUD workflows, business logic, data processing, and database operations** for enterprise application features.
- Used **Postman** for API testing, debugging, request validation, and verification of application workflows.
- Worked with **Git and GitHub** development workflows while collaborating with other developers on product enhancements and issue resolution.

EzzGrow Aug 2023 – Oct 2023

Frontend Developer Intern | Remote

- Developed responsive web interfaces using **React.js, JavaScript, HTML5, and CSS3** with reusable and maintainable components.
- Integrated frontend components with **REST APIs** and worked with API-driven application workflows.
- Debugged UI issues, implemented frontend features, and improved responsive layouts across application screens.
- Collaborated with developers using **Git and GitHub** workflows for feature development and code management.

SELECTED PROJECTS

Mini CRM Platform — Node.js, Express.js, MongoDB, Redis, React.js

- Built **REST APIs and CRUD workflows** for customer and application data using Node.js, Express.js, MongoDB, and Redis.
- Developed React.js frontend features and integrated authentication and application data flows with backend REST APIs.
- Designed API-driven workflows for managing application data and connecting React components with backend services.
- Worked with MongoDB for application data persistence and Redis for supporting data access workflows.

AI-Powered Seasonal Wardrobe Assistant — React.js, Node.js, Express.js, MongoDB, Python

- Built a full-stack recommendation application using **React.js, Node.js, Express.js, MongoDB**, and a Python-based recommendation service.
- Developed REST APIs and connected the React frontend with backend services for personalized recommendation workflows.
- Implemented MongoDB-based data storage and API-driven application workflows for user preferences and results.

MedCare Appointment Scheduler — React.js, REST APIs, Java, Spring Boot, MySQL

- Developed a full-stack appointment scheduling application with a **React.js frontend** and REST API backend.
- Built features for appointment booking, doctor schedules, patient management, authentication, and CRUD workflows.
- Implemented frontend-backend integration using REST APIs and Axios for end-to-end application functionality.

Parental Legacy — MERN Stack, React.js, Node.js, Express.js, MongoDB

- Developed a full-stack web application using the **MERN stack** with React.js frontend and Node.js/Express.js backend services.
- Implemented REST API communication, application workflows, database operations, and responsive frontend functionality.
- Worked with GitHub and modern deployment workflows to publish the application for real-world usage.

EDUCATION & ACHIEVEMENTS

B.Tech. in Computer Science Engineering 2022 – 2026

Lovely Professional University, Phagwara, Punjab

Problem Solving: 350+ LeetCode Problems · 200+ GeeksforGeeks Problems

CORE STRENGTHS

Frontend: React.js, JavaScript, TypeScript

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, Mongoose, SQL, Redis

Development: API Integration, Debugging, CRUD

Problem Solving: DSA, OOP, Logical Thinking

Professional: Teamwork, Communication, Learning Agility
